Safety Data Sheet
according to EC-Regulation 91/155/EEC

1. Identification of the substance/preparation and of the company/undertaking

Identification of the substance or preparation
LUX ELEMENTS®-COL-PU

Use of the substance/preparation
Adhesive

Company/undertaking identification
LUX ELEMENTS GmbH & Co. KG, An der Schusterinsel 7, D-51379 Leverkusen
Telephone +49 (0)2171/72 12-0, Fax +49 (0)2171/72 12-40
info@luxelements.de, www.luxelements.de

Emergency telephone / Office for advice
Advisory office in case of poisoning:
Tel.: ---
Telephone number of the company in case of emergencies:
Tel. +49 5262 / 99 39 657 (LEC)

2. Composition/information on ingredients

2.1 Chemical name content % symbol R-phrases EINECS, ELINCS
Methylenediphenyl diisocyanate 30 - 60 Xn/Xi 20-36/37/38-42/43 247-714-0

For complete wording of the R-phrases, refer to point 16.

3. Hazards identification

3.1 To people
See point 11 and 15.
Preparation is classified as hazardous in the sense of directive 1999/45/EC.
Irritation of the eyes
Skin contact:
Irritation of the skin.
May cause sensitization by skin contact.
Inhalation:
Product is dangerous to health.
Irritation of the respiratory tract
May cause sensitization by inhalation.

3.2 To the environment
See point 12.

4. First aid measures

Delayed effects from exposure can be expected.

4.1 Inhalation
Remove person from danger area.
Supply person with fresh air. Call doctor immediately.
If the person is unconscious, place in a stable side position and consult a doctor.

4.2 Eye contact
Wash thoroughly for several minutes using copious water - call doctor immediately, have Data Sheet available.
4.3 Skin contact
Wash thoroughly with soap and copious water - remove contaminated clothing immediately. If skin irritation occurs (redness etc.), consult doctor.

4.4 Ingestion
Rinse the mouth thoroughly with water. Do not induce vomiting - give copious water to drink. Consult doctor immediately.

4.5 Special resources necessary for first aid
n.c.
Symptoms:
Nausea
Respiratory distress
Dizziness
Headaches
Coughing

5. Fire-fighting measures

5.1 Suitable extinguishing media
CO2
Extinction powder
Water jet spray
Large fire:
Water jet spray / alcohol resistant foam
Cool container at risk with water.

5.2 Extinguishing media which must not be used for safety reasons
High volume water jet

5.3 Special exposure hazards arising from the substance or preparation itself, combustion products, resulting gases
In case of fire the following can develop:
Oxides of carbon
Oxides of nitrogen
Toxic pyrolysis products.
Traces possible:
Isocyanates
Hydrocyanic acid (hydrogen cyanide)

5.4 Special protective equipment for fire-fighters
Protective respirator with independent air supply

5.5 Further information
Dispose of contaminated extinction water according to official regulations.

6. Accidental release measures

Refer to point 13. and for personal protection refer to point 8.

6.1 Personal precautions
Ensure sufficient supply of air.
Avoid inhalation, and contact with eyes or skin.
If applicable, caution - risk of slipping.

6.2 Environmental measures
If leakage occurs, dam up.
Prevent from entering drainage system.
Prevent surface and ground-water infiltration, as well as ground penetration.

6.3 Methods for cleaning up
Collect using absorbent material (e.g. Universal binding medium, sand, kieselguhr, sawdust), and dispose of according to point 13.
Keep moist.
Do not close packing drum.
Allow to stand for a few days in an unclosed container until reaction no longer occurs.
CO2 formation in closed tanks causes pressure to rise.
Hardened product:
Collect mechanically and dispose of according to point 13.

### 7. Handling and storage

#### 7.1 Handling

**Tips for safe handling:**

- See point 6.1
- Avoid aerosol formation.
- Avoid inhalation of the vapours.
- Ensure good ventilation.
- If applicable, suction measures at the workstation or on the processing machine necessary.
- Avoid contact with eyes or skin.
- Eating, drinking, smoking, as well as food-storage, is prohibited in work-room.
- Wash hands before breaks and at end of work.
- Use working methods according to operating instructions.
- No contact with products of this type in case of allergies, asthma and chronic respiratory tract disorders.

#### 7.2. Storage

**Requirements for storage rooms and containers:**

- Not to be stored in gangways or stair wells.
- Store products only unopened, in original packing.
- Keep away from food, drink and animal feedingstuffs.

**Special storage conditions:**

- See point 10.2
- Avoid exposure to moist air and water.
- Store cool
- Protect from direct sunlight and warming.
- Keep out of access to unauthorised individuals.

### 8. Exposure controls/personal protection

Ensure good ventilation. This can be achieved by local suction or general air extraction.

If this is insufficient to maintain the concentration under the WEL or AGW values, suitable breathing protection should be worn.

Applies only if maximum permissible exposure values are listed here.

<table>

---

**WEL-TWA = Workplace Exposure Limit - Long-term exposure limit (8-hour TWA (= time weighted average) reference period) EH40. AGW = “Arbeitsplatzgrenzwert” (workplace limit value, Germany). | WEL-STE = Workplace Exposure Limit - Short-term exposure limit (15-minute reference period). | BMGV = Biological monitoring guidance value EH40. BGW = “Biologischer Grenzwert” (biological limit value, Germany) | Other information: Sen = Capable of causing occupational asthma. Sk = Can be absorbed through skin. Carc = Capable of causing cancer and/or heritable genetic damage. ** = The exposure limit for this substance is repealed through the TRGS 900 (Germany) of January 2006 with the goal of revision.

**8.1 Respiratory protection:**

- With short-term contact:
  - Filter A B (EN 141)
At high concentrations:
Respiratory protection appliance (insulation device) (e.g. EN 137 or EN 138)

8.2 Hand protection:
Chemical resistant protective gloves (EN 374).
Recommended
Protective gloves in butyl rubber (EN 374).
Protective hand cream recommended.

8.3 Eye protection:
Tight fitting protective goggles with side protection (EN 166).

8.4 Skin protection:
Protective working garments (e.g. safety shoes EN 344, long-sleeved protective working garments)

Additional information on hand protection - No tests have been performed.
Selection made for preparations according to the best available knowledge and information on the ingredients.
Selection of materials derived from glove manufacturer's indications.
Final selection of glove material must be made taking the breakthrough times, permeation rates and degradation into account.
Selection of a suitable glove depends not only on the material but also on other quality characteristics and varies from manufacturer to manufacturer.

In the case of preparations the resistance of glove materials cannot be calculated in advance so it has to be tested before use. The exact breakthrough time of the glove material can be requested from the protective glove manufacturer and must be observed.

10. Stability and reactivity

10.1 Conditions to avoid
See point 7
Stable when handled and stored correctly.
Protect from humidity.
Strong heat

10.2 Materials to avoid
See point 7
Oxidizing agents
Acids
Bases
Amines
Alcohols
Water
Development of:
CO2
CO2 formation in closed tanks causes pressure to rise.

10.3 Hazardous decomposition products
See point 5.3
No decomposition when used as directed.
11. Toxicological information

11.1 Acute toxicity and immediate effects

Ingestion, LD50 rat oral (mg/kg): > 2000 *
Inhalation, LC50 rat inh./l/4h): See point 15.
Skin contact, LD50 rat dermal (mg/kg): See point 15.
Eye contact: See point 15.

11.2 Delayed and chronic effects

Sensitization: Yes (inhalation and skin contact)
Carcinogenicity: K3 (MDI, pMDI) (TRGS 905), Aerosol
Mutagenicity: n.c.
Reproductive toxicity: n.c.
Narcosis: n.c.

11.3. Further information

The product was not tested.
Classification according to calculation procedure.
The following may occur:
Dermatitis (skin inflammation)
Drying of the skin.
Allergic contact eczema
Asthmatic symptoms
In case of sensitivity, concentrations below the limit value may already result in asthmatic symptoms.
* Methylene diphenyl diisocyanate

12. Ecological information

Water hazard class (Germany): 1
Self classification: Yes (VvVvS)
Persistence and degradability:
With water at the interface, transforms slowly with formation of CO2 into a firm, insoluble reaction product with a high melting point (polycarbamide).
According to experience available to date, polycarbamide is inert and non-degradable.
Behaviour in sewage plants: According to the recipe, contains no AOX.
Aquatic toxicity: n.av.
Ecological toxicity: n.av.

13. Disposal considerations

13.1. for the material / preparation / residue

EC disposal code no.:
The waste codes are recommendations based on the scheduled use of this product.
Owing to the user's specific conditions for use and disposal, other waste codes may be allocated under certain circumstances. (2001/118/EC, 2001/119/EC, 2001/573/EC)
08 04 09 waste adhesives and sealants containing organic solvents or other dangerous substances
08 05 01 waste isocyanates
Recommendation:
Pay attention to local and national official regulations
E.g. suitable incineration plant.
E.g. dispose at suitable refuse site.
Hardened product:
Can be disposed of with household rubbish.

13.2 for contaminated packing material

See point 13.1
Pay attention to local and national official regulations
Empty container completely.
Uncontaminated packaging can be recycled.
Dispose of packaging that cannot be cleaned in the same manner as the substance.
14. Transport information

General statements
UN-Number: n.a.

Road/Rail-transport (ADR/RID)
Class/packing-group: n.a.
Classification code: n.a.
LQ: n.a.

Transport by sea
IMDG-code: n.a. (class/packing-group)
Marine Pollutant: n.a.

Transport by air
IATA: n.a. (class/secondary danger/packing-group)

Additional information:
Non-dangerous material according to Transport Regulations.

15. Regulatory information

Classification according to Dangerous Product Regulations incl. EC Directives (67/548/EEC and 1999/45/EC)

Symbols: Xn
Indications of danger:
Harmful
R-phrases:
20 Harmful by inhalation.
36/37/38 Irritating to eyes, respiratory system and skin.
42/43 May cause sensitization by inhalation and skin contact.

S-phrases:
(2) Keep out of the reach of children.
23.b Do not breathe vapour.
26 In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
35 This material and its container must be disposed of in a safe way.
36/37 Wear suitable protective clothing and gloves.
45 In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).

Additions:
Contains isocyanates. See information supplied by the manufacturer.
Methylenediphenyl diisocyanate
Observe restrictions: Yes
Observe youth employment law (German regulation).
Observe law on protection of expectant mothers (German regulation).
Observe restrictive guidelines 76/769/EEC, 1999/51/EC, 1999/77/EC
VOC 1999/13/EC 0%

16. Other information

These details refer to the product as it is delivered.
Storage class VCI (Germany): 10 - 13
Revised points: 1

The following phrases represent the prescribed R-phrases for the ingredients (designated in point 2).
20 Harmful by inhalation.
36/37/38 Irritating to eyes, respiratory system and skin.
42/43 May cause sensitization by inhalation and skin contact.

Legend:
n.a. = not applicable / n.v., k.D.v. = n.av. = not available / n.g. = n.c. = not checked
The statements made here should describe the product with regard to the necessary safety precautions - they are not meant to guarantee definite characteristics - but they are based on our present up-to-date knowledge.

No responsibility.
